(They will be done as time goes on) Lack of form/forme changes. Hopefully you read this :P I'd love to see your hack continue to improve as time goes on. But the Trainers there are allowed to use them as well :) -Running Indoors: Way more convenient, in my opinion. If you don't want to deal with using just port towns you could have an NPC who "flies" (warps) you to the areas instead. anyone having trouble patching it? I've tested a few Gameshark codes already and they work just like the do in vanilla Emerald. I'm not sure if it's just a visual glitch or what, but Zorua still appears as Zorua with the name of the pokemon it's meant to be transformed into. However, I think it has messed up my items pocket - I now have 76 of each item in there, an empty TMs pocket, and my PokéA dex reads 0 and cannot be opened? Thanks again LC. Though I'd let you know regardless in case you weren't aware:The berries you've added read 'Cheri' when you plant them, and in the bag it says you have '21' of these new berries too side note: do you know if there are any patches to fix RTC so the game can be played on hardware? Similar to your 650 emerald patch, a plain emerald Rom but with all this awesome features (except max level being 200, I don't like that sorry :D) The updated version is outstanding, easily one of the best hacks I've ever played. cause otherwise this is currently my favorite hack to play on real hardware Still needs a properly working EXP share as a key item i don't are sure If This are a glitch or a bug Because all PokéAmons Who Have two abilities,Don't have hidden abilities only The PokéAmons Who Have one ability is Who Have a hidden ability (Sorry for my bad english) Hack I Support and i like Originally Posted by RenTheDog [Original Post] Still needs a properly working EXP share as a key item By default the EXP Share seems to give experience to all team members as expected, but putting it in the PC disables this. us rop saicarG .aicneucesnoc ne odatsuja ah es ogeuj le euq ol rop .licjAf odaisamed se ogeuj led sajeuq odibicer eh :7102-5-2 led ritrap a(olbatse led daltudicid - lodazilautca s)Am ocop nu aev es euq ecach)A :allatab ed sodnof soveuN - !otse ribircsed ed arenam arto anugin)A :soveu)H 1 LEVE- !soid a saicarG)A :SMH elbaleD- !hctitG xeD ©Á ÁkoP s)Am noc on aroh)A :NOM ÁKOP A ARUTPAC ED ED PXE niaG- !orto rasu ereliuq is j)Aratnugerp el ogeuj le .n)Aicaleper anu arap aslob us ruzac ed ragul ne n)Aicaleper ed ametsis oveuN)A :?seronem senoicacibu savoun ragerpa sa)Aretuq zev anugla)A orep .otse arap oev et ocopmaT j3 Ása ogla o oy MP sedeup)A togh)A lanrac ed ocop nu rasu a)Ardop y enopretni es etnemloutca euq ay .sodal)orrasedbus etnatsab necerap seragul sonug)A -erbmoh are .pocol odneivlov abatsse em is rev arap atseif im ©ÁsiveR odnauc secnotne .n)Áisuli us Á)ipmor es odnauc rejum anu omoc Á)Artsom es onlucsam suroz IM .nomekop orto le noc n)Áicarapmoc ne odnalov j)Atse euq ecearP .agracsed al noC enev euq n)Áicatnemucod al rev odeup on euq Ása .eciffo t)fosorciM ognep on .s)ÁmedA ema©Árc .rovaf rop ,ebu)uoY ne .)cte .cte .ekcolzuN .rezirtaeta .ogeuj(hguorhtyalP nu rech serieuq iS sasneip euq ol rebas emaj)AD .a)Arirferp ol edn)Ad rebas olemag)Ah .on is orep .serorre sol elramrofni arap ragul rojem le se etse euq ognopuS (:odot raparta arap etneicifus se oN 41 .aroha atsah ogeuj le ohcum odnaturfsid yotsE , ojabart oudra ut rop saicarg sahcum !CL otnemaznal le rop senoicaticileF)A .asoc 002 levín le otpece .raekcah etse erbos odot atsup em .aduya atse raedaprap odeup on euqrop olrah euq ol ed etad)vlO .noM ©ÁkoP ed serbmon sol artnoc odnahul j)Atse euq ecearP orep .)orroha le anoculos euq ehcrap etse ed s)Ámeda(ehcrap etse odnatneti eH (:odneicerc j)Atse sayab sim ed anugin orep .SD3 im ne ogeuj le odnaguq yotsE ?frutsuR ed len)At le ne osip orto omoC)Á I work, I could play it :) hey, I'm a budding youtuber and make funny videos poké © mon, Á © chame a look >> here
